MEMORANDUM FOR: Director of Central Intelligence

**THROUGH: General Counsel
Deputy Director/Intelligence**

**SUBJECT: Transmittal of CIA Opinion Regarding
the Organization and Control of the
Soviet Guided Missile Program**

1. This memorandum contains recommendation for action in paragraph 4, below.
2. The attached is forwarded in accordance with a request made of you by the Senate Armed Services Committee during your testimony last week.
3. In our opinion, there is only one area of significant divergence of viewpoint within the intelligence community on this subject. U.S. Air Force Intelligence does not agree with the role of the Soviet artillery outlined in this paper, at least with respect to longer range ballistic missiles, and believes that the available evidence does not support a conclusion regarding the subordination of these missiles at the present time.
